

Sauvignon Blanc

A HISTORY OF ACCLAIM: OVER 9 VINTAGES OF 90+ SCORES

Our lands may be raw and remote, but we sustain them with hands-on care. Our elevated valley is the perfect stage for aromatic whites like Sauvignon Blanc, where high-altitude sunshine meets cool nights to deliver full phenolic ripeness at lower sugar levels. The unique climate allows us to harvest grapes with full flavor development and lower sugar, giving these wines their signature crisp and vibrant acidity. Grapes are hand-picked in the cool of early morning and promptly pressed to protect their purity and aromatic integrity. Fermented in stainless steel, these wines stay true to their varietal character; bright, clean, and refreshingly expressive.
